

INNOVATION **360**

i360'S

UNIQUE POSITION

Too much attention is often placed on the treatment "center" and not enough on helping individuals make healthy changes where they live and breathe ~ in the midst of life.

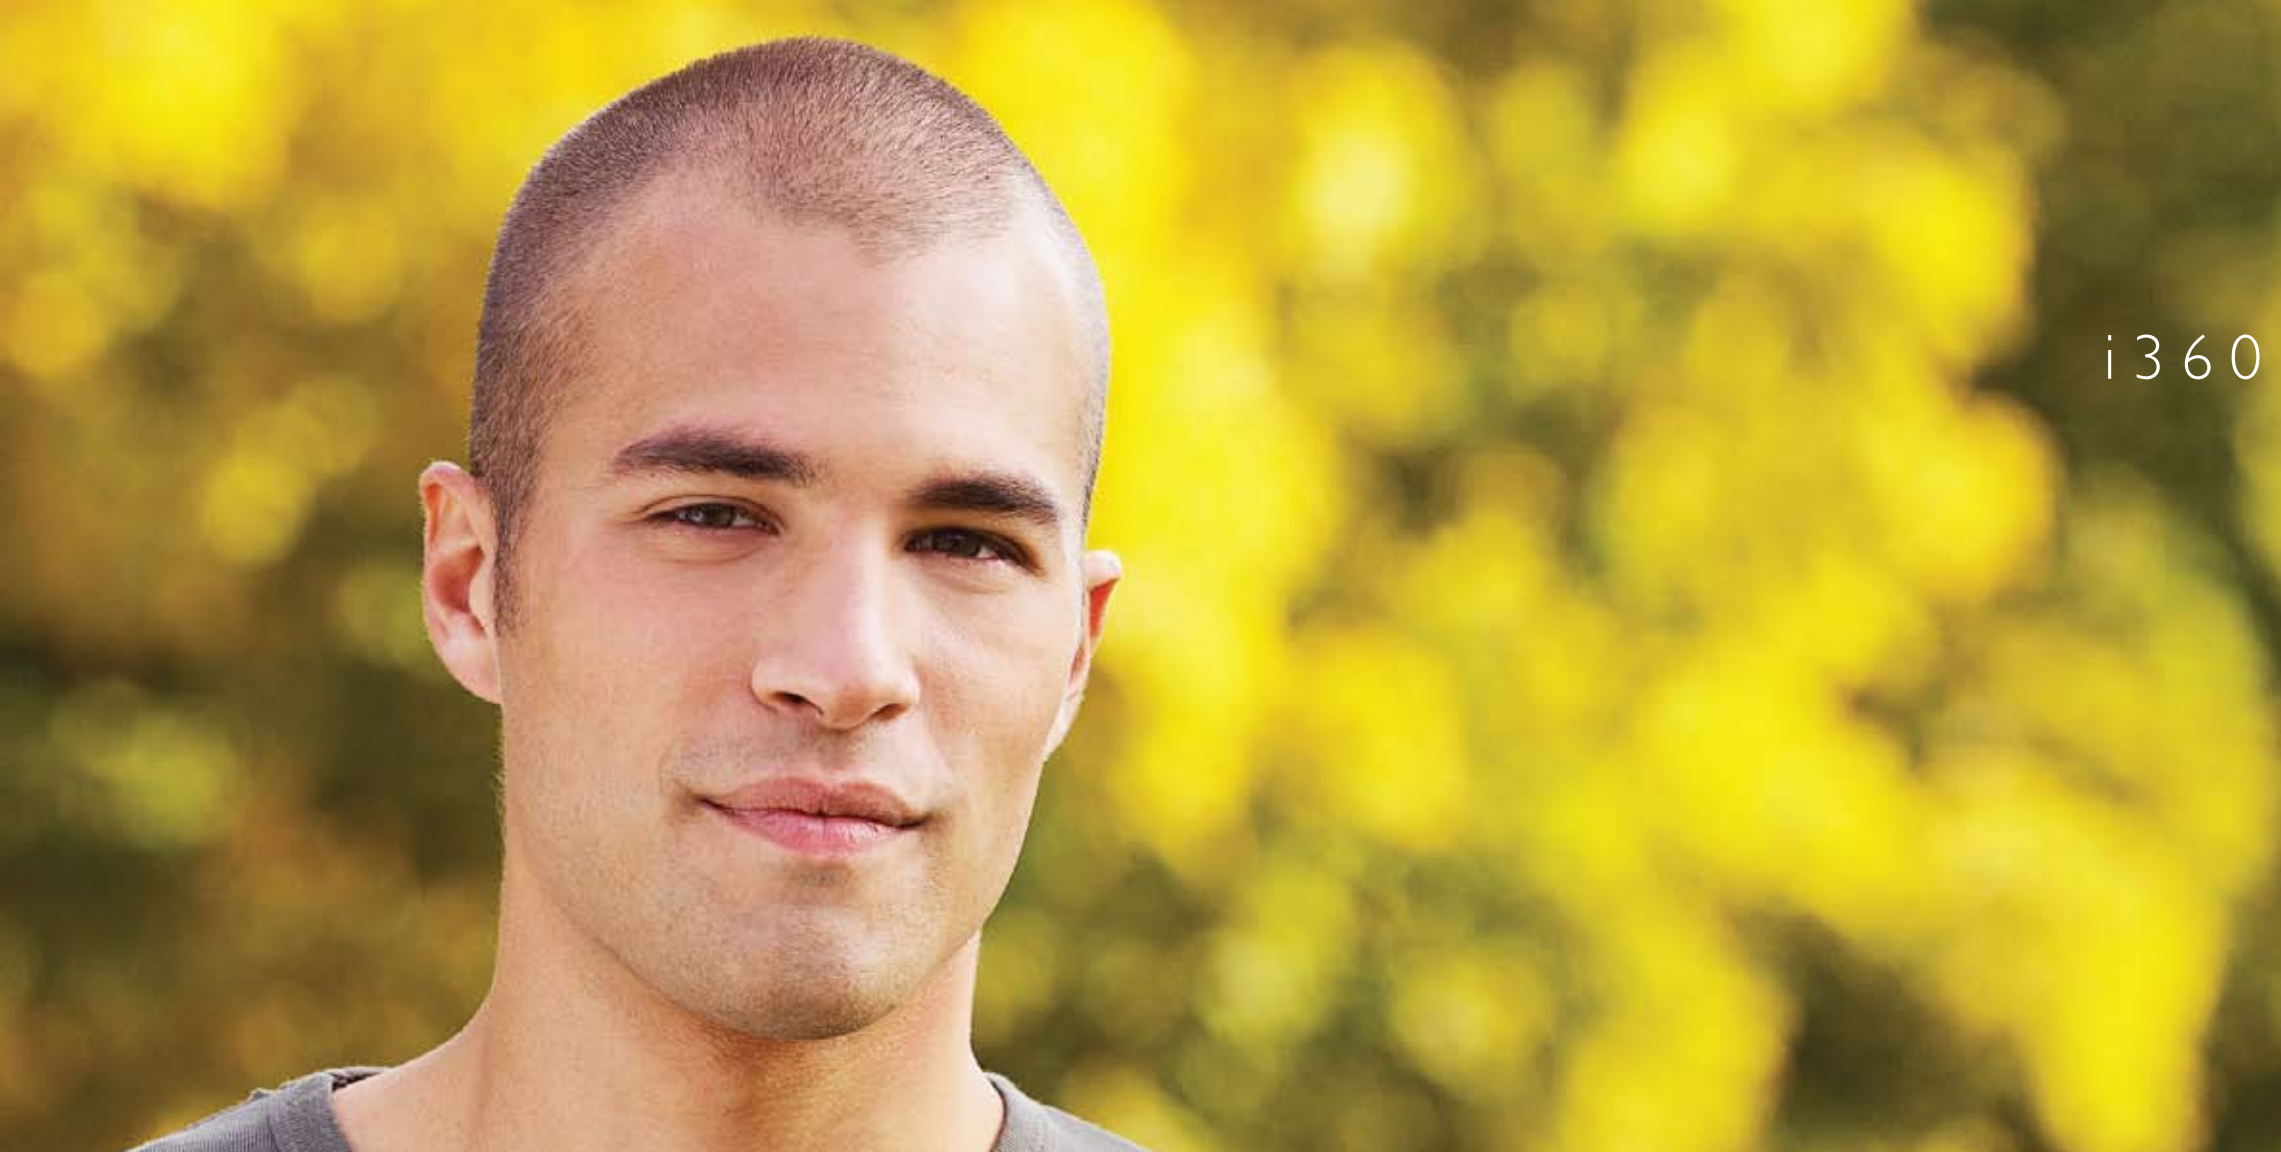

i360's unique approach helps individuals build and apply the skills necessary to live a new life, free from alcohol and drugs. Walking with you through life's daily challenges provides unique opportunities to make recovery personal, meaningful, relevant, and enduring.

TREATMENT IN THE MIDST OF LIFE

It has been our experience that helping individuals in the environment in which they live provides better guidance to address real-life issues and builds stronger bonds with a healthy lifestyle.

At some point, you have to learn to live alcohol and drug free in your own environment. By working with individuals during their day-to-day life, our team addresses the unique aspects of the client's life and weaves treatment into the daily challenges each of us must face.

i360 IS DIFFERENT

Each client's treatment is based on a set of highly-customized outpatient services, delivered in a variety of settings and tailored to match the unique medical, behavioral, and physical well-being needs of the individual.

INNOVATION360 intervenes in all areas of life to immediately begin rebuilding a healthy foundation; addressing both the psychological destruction and physical toll of alcohol and drug dependence.

360 DEGREES

INNOVATION360 envelops each client in 360 degrees of the best professional recovery care available in the world. While no two treatment plans are the same, all are conducted one-on-one, tailored to address the specific, personal issues at the core of addiction.

i360 SERVICES

i360 brings advances in medicine, counseling, therapy, nutrition, and physical well-being to you, incorporating the critical ingredients for a meaningful life.

ADVANCES IN MEDICINE

i360 is the result of 20 years of addiction treatment and scientific research experience and combines the most advanced medications with individualized behavioral interventions and counseling.

We participate in research so that our clients can benefit from the most recent advances and discoveries in addiction treatment.

REDISCOVERING LIFE

Repairing the destruction of addiction ~ Promoting renewed life ~ Balancing freedom and trust with boundaries and accountability.

RECOVERY AND FAMILY

i360 works with the entire family to rebuild all areas of life that have been damaged, neglected or abandoned during the cycle of dependence or abuse.

Spouses, partners, children, parents, and close friends - addiction and recovery involve a number of key individuals in a person's life. Whether in formal therapy sessions or in more general education and awareness, INNOVATION360 provides critical information to dispel myths and repair relationships for the client.

PROTECTING PRIVACY

No matter what your level of success, prominence, or visibility; privacy and confidentiality are of utmost importance to our treatment team. i360 professionals are specifically trained and experienced in maintaining the highest level of discretion and confidentiality for you and your family.
